Customize Courses with Creator 2

Alchemy Creator 2 is an easy-to-use course authoring and editing tool designed to help you create interactive courses ready to play on the Alchemy platform in minutes. Transform presentations and training content by adding:

- Attention-grabbing audio, images and videos

- Interactive multiple choice quizzes

- Translated text

- Automatic remediation to ensure comprehension

- Friendly competitions with gamified learning

Edit Alchemy courses so you can train to exact internal policies, procedures, and processes for specific sites or corporate needs. All customized courses can be viewed using Alchemy Player and/or eLearning platforms, and scores are tracked in Manager.

> Using Creator is very easy. I can actually make videos of our employees performing their jobs. They feel they are a part of the organization, and they take pride in helping to produce the quality products, in a safe environment."
>
> - Vanee Foods

Creator 2 enables instructors to:

Customize

- Customize any Alchemy course in your library to meet your specific training needs
- Develop your own courses from scratch and upload into Alchemy Manager

Translate

- Create introductory and advanced versions of the same course
- Translate courses into 18 different languages with built-in Google Translator

Video

- Add or delete videos and other content from Alchemy courses
- Insert your own videos to show job or company specific requirements
